Summary

Full-stack Developer skilled in MERN, secure authentication, and scalable backend systems. Proven ability to design cost-effective, fault-tolerant solutions and complex integrations. Experienced with AWS, Docker, CI/CD and Databases, focused on optimization and team problem-solving.

Experience

Software Developer Intern

WALLT

October 2024 – July 2025

- Designed AWS S3-based cache for cron jobs, eliminating recurring Redis costs and boosting resilience.
- Implemented E2EE and account lockout, significantly improving user data security and compliance.
- Automated zero-touch deployment via GitHub Actions/AWS ECS, ensuring high availability and faster production.
- Executed large-scale production database migrations, maintaining 100% data integrity with minimal downtime.

Backend Developer Intern

Fingrowth MediaTech

August 2024 – September 2024

- Designed database schemas, built migration workflows, and optimized backend queries for performance.
- Developed RESTful APIs using Express.js and integrated MongoDB with JWT-based authentication.
- Explored and implemented secure user authentication using Next.js and Next Auth.

Projects

Legal Lingo | *Next.js, MySQL, Prisma, NextAuth.js, AWS*

- Built a multilingual legal blog platform serving blogs in 11 languages and providing personalized content.
- Designed MySQL schemas with Prisma ORM, optimizing queries by 30% and streamlining migrations.
- Integrated secure user authentication using NextAuth.js, including email, mobile, and OTP verification.
- Boosted engagement with full-text search, responsive design, and analytics, driving 20% higher retention.

Batwara | *TypeScript, Node.js, Next.js, PostgreSQL, Neo4j, Cypher, Docker, Inngest*

- Built a scalable, secure **expense management platform** using a **modular monolith** architecture with **graph-based modeling** for accurate group settlements and transaction reconciliation.
- Implemented AI background jobs for classification and summaries, reducing manual input by **70%**.
- Optimized aggregation queries, achieving a **3×** improvement in net balance computation.

Skills & Abilities

Languages: Python, JavaScript, TypeScript, C/C++, SQL, Bash/Shell

Frameworks: React, Next.js, Node.js, Express.js, Prisma ORM, Tailwind CSS, NextAuth.js

Databases: PostgreSQL, MySQL, MongoDB

Tools & Platforms: Git, Docker, AWS (EC2, S3, RDS, Lambda, SES), Kafka, Postman, Jira, Figma

Core Skills: DSA, REST APIs, Auth (OAuth/JWT/OTP), Migrations, Problem Solving, Collaboration

Education

Netaji Subhas University of Technology (GPA 8.25/10)

New Delhi, India

Master of Technology in Computer Science

2025 – Present

Vivekananda Institute of Professional Studies, GGSIPU (GPA 8.6/10)

New Delhi, India

Bachelor of Technology in Artificial Intelligence and Data Science

2021 – 2025

Certifications

Full Stack Web Developer

Data Analytics

Machine Learning & Deep Learning

IIT Kanpur

Google, Coursera

NPTEL
